

# Biometric Payment Card

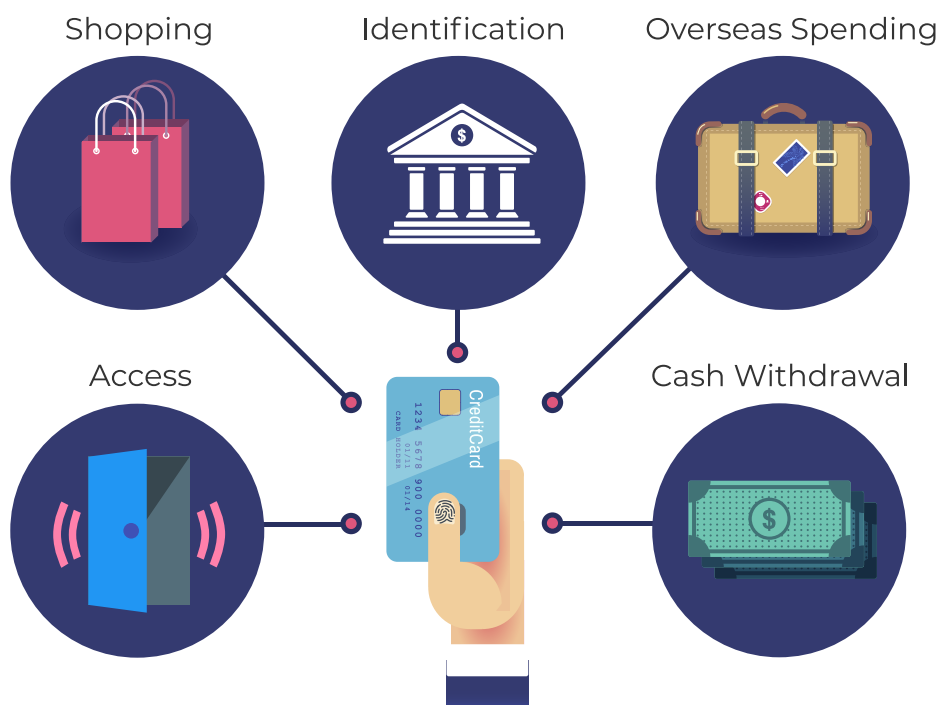

Equipped with both the convenience of contactless payment and the high security levels of fingerprint authentication, the Goldpac Biometric Payment Card represents the next generation of payment cards technology.

## Secured Payment On Your Fingertip

- **Security** - Fingerprint authentication used instead of PIN or signature
- **Privacy** - Storage and matching of fingerprint template on the biometric card
- **Convenient** - Easy and quick payment with <1s per transaction

## Applications

## Enrollment Options

### PC + PCSC Reader

- PC-driven software connected to PCSC reader.
- PC hosted software guides user through enrolment process.

### Stand-alone Reader

- Reader-driven, stand-alone unit.
- No need for a PC.
- Status lights on the reader provides guidance through the enrolment process.
