

QR Code Scanner

The Goldpac QR Code Scanner supports scanning of all one dimensional and two dimensional codes in a lightweight and durable form factor. Its top facing scanning window provides an easy user experience and precise scanning performance. Its minimal design seamlessly adapts to any retail environment.

USB connectivity provides instant plug and play without installation of driver.

Large scanner window for precise scanning performance and integrated white LED fill light.

Built-in speaker for scanning alert and feedback.

Specifications

Item	Parameter
External Specifications	
Supply Voltage	5V
Working Current	<200mA
Standby Current	<100mA
Decode Capabilities	
Reading Symbology	One Dimensional Code: Code 128, Ean-13, UCC/EAN-128, Ean-8, UPC-E, UPC-A, ITF-25, Code39, Code39 Full ASCII, Code93, Codebar. Two Dimensional Code: QR Code Version 1-20
Interface Support	USB
Performance Specifications	
Image Sensor Support	300 Thousand Pixels CMOS Sensor Chip, 640*480, 30FPS
Reading Angle	Skew±55 Degree, Pitch ±55 Degree, Tilt 360 Degree
Reading Speed	50ms (Average), Continuous Scan Support
Reading Depth Of Field	20cm
Reading Resolution	<10mil
Voice Prompt	Support
Speaker Volume	0-105db
Work Parameters	
Working Temperature	-20° – 60°
Storage Temperature	-30° - 85°
Humidity	Relative Humidity 5% - 95%
Operation System Support	Windows
